Part 1 Making a crash lock base for packaging

1. Draw out the net for the crash lock base carton onto thin card. You will need to enlarge it by a factor of 2 or 3.

2. Carefully cut out the net using a craft knife and safety ruler.

3. Decorate the carton net with simple images cut from a magazine that indicate the sort of product you think it could contain.

4. Assemble the carton using double-sided adhesive tape.
Part 2 Making a pop-up carton lid

1 Draw out the net for the carton with a pop-up lid onto thin card. You will need to enlarge it by a factor of 2 or 3.

Net for pop-up carton lid

2 Carefully cut out using a craft knife and safety ruler.

3 Decorate the carton net with simple images cut from a magazine that indicate the sort of product you think it could contain.

4 Assemble the carton using double-sided adhesive tape.

Further/homework
Make a collection of different cartons. Carefully break open the glued joints and lay them out flat so that the nets from which they are formed becomes clear. Arrange the nets in a display onto black paper using double-sided adhesive tape.
